

# Art Program

ODU's Art program prepares the next generation of smart, innovative and conscientious art professionals to become leaders in the local community and, ultimately, the world at large.

Courses revolve around the goals of aesthetic and technical development, artistic exploration and mastery, interdisciplinarity, and the historical concept that art is one of the truest reflections of culture and society. Students are educated on a conceptual and technical basis through a foundations curriculum, which allows them to choose an area of emphasis in Art, Art Education or Design.

## Program Highlights

- Small class sizes with faculty who have experience in the field
