

ODU's Philosophy program prepares students to think critically in a way that is informed by the insights of the Western philosophical tradition. Studying philosophy develops the ability to think critically and write clearly, as evidenced by philosophy students' outstanding performance on the standardized tests for graduate schools, including the LSAT.

Graduates of ODU's Philosophy program are prepared for a variety of careers or further education. The flexibility to add a second major or minor helps students customize their studies.

- Small class sizes allow professors to instruct and mentor students on a personal level
- † Located just minutes away from internship opportunities in downtown Columbus
- † Major and minor available in Philosophy
- Additional minor available in Applied Ethics
- † A specifically designed B.A. in Philosophy with a Pre-Law Concentration is available
